**2/2017-01 Resolution for Lead Testing**

**CUMBERLAND COUNTY BOARD OF HEALTH  
RESOLUTION NO. 02/2017-01**

**WHEREAS**, every child deserves to grow up in a healthy, safe environment, free from the harmful effects of lead, and to that end, the County of Cumberland fully supports proposed changes to N.J.A.C. 8:51; and

**WHEREAS**, certain changes are necessary to N.J.A.C. 8:51 to better identify children at risk of elevated blood lead levels, and there is a need to request funding from the New Jersey Department of Health to implement local services to affected children; and

**WHEREAS**, childhood lead poisoning is considered the most preventable environmental disease among young children, yet approximately half a million children throughout the country still have elevated blood lead levels; and

**WHEREAS**, the sources of lead exposure to children are mainly from lead based paint and lead contaminated dust found in deteriorating buildings built before 1978, and from contaminated drinking water, lead in soil and take home exposure from a workplace; and

**WHEREAS**, the proposed changes to N.J.A.C. 8:51 are expected to identify an additional four thousand children annually in New Jersey with elevated blood lead levels of 5 micrograms per deciliter or higher. This will mandate the Cumberland County Health Department to provide nursing case management and environmental intervention to these additional lead affected children residing in Cumberland County as a result of the changes in N.J.A.C. 8:51; and

**WHEREAS**, to date the New Jersey Department of Health has not earmarked direct funding for the proposed mandated services under N.J.A.C. 8:51 for local health departments.

**NOW, THEREFORE, BE IT RESOLVED BY THE CUMBERLAND COUNTY BOARD OF HEALTH** that direct funding to support the critical services of lead nursing case management and environmental intervention in the County of Cumberland is requested from the State of New Jersey to ensure the health and well being of our children in Cumberland County; and

**BE IT FURTHER RESOLVED** that the clerk forward a certified true copy of this resolution to the Governor of the State of New Jersey; the President of the New Jersey State Senate; the Speaker of the General Assembly; the New Jersey Department of Health; the Cumberland County Counsel; the Cumberland County Board of Freeholders; and the New Jersey Association of City and County Health Officials.

**OLD BUSINESS:**

- N/A

**NEW BUSINESS:**

- Freeholder Sauro requested a meeting be set up with the Engineers and CCDOH, similar to the meeting we had with the Board of Realtors, to discuss how we can improve upon communication and interfaces for the betterment of their clients and our residents. Noah Hetzell will provide a contact list for the engineers that we work with often.

**ADMINISTRATIVE REPORT:**

- **Carnavale-** The case was taken to Cumberland County Superior Court on January 13<sup>th</sup>. Prior to entering the court room, solicitor Schroeder & Noah met with the defendant where they were presented with a letter from Mr. Carnevale which stated that he was surrendering his A-901 license to the NJDEP. Mr. Carnevale also disclosed that his business had been dissolved and the business assets had already been seized by his lending bank (Capital) who was now operating the business as Capital Carnevale. Mr. Carnevale also presented that he did not believe that the violation had occurred at the CCIA landfill as accused but argued that the violation had occurred in his business yard. After brief discussion, the pending charges were dropped due to the convolution of the bank already seizing the assets from Mr. Carnevale, provided that he presented his statement and letter before the presiding Judge. The court dismissed the charges, and Mr. Carnevale's statements, along with his letter, were forwarded on to the NJDEP solid waste transportation unit for further investigation. There is potential that additional violations of NJAC 7:26 are occurring, but outside of our jurisdiction.
- **Health Equity Forum-CCDOH** has been asked to host the event this year on April 12<sup>th</sup> at Cumberland County College. Megan will send out registration information to the Board if they would like to attend.

- **Summer Intern**-Noah discussed the summer intern position, advising the Board that the State has approved this to be a paid temporary position. Megan and Noah will work with Personnel when hiring the intern.
- **Local Health Report**-Our yearly Health Department report that is required to be submitted to the State was submitted last week, prior to the due date.
- **HIV Van**-The MOU with the State has expired and the title will be transferred to SJ Aids Alliance for use.
- **NJ Healthcare Quality Institute-Year 2**-Funds have been slightly decreased. Two items have been changed on the MOU. New MOU will be signed once changes have been made.
